

## **EQUIPMENT OPERATOR 1**

### **NATURE OF WORK**

This is semi-skilled work in the safe operation of trucks and the performance of maintenance tasks.

Positions of this class are responsible for the safe and efficient operation of trucks and other equipment frequently with mechanical attachments requiring the manipulation of simple controls. Work requires careful attention to safety regulations to avoid injury to city employees, the public, or damage to public or private property. In addition to transporting materials, personnel and equipment, an employee of this class frequently participates in maintenance, repair, and construction tasks as a member of a maintenance crew. On routine or repetitive assignments, an incumbent usually receives only general supervision. Assignments may also include operating more complicated equipment on a training basis. Work is performed in accordance with established procedures subject to check by a supervisor. Work is reviewed for the safe operation of equipment.

### **ILLUSTRATIVE EXAMPLES OF WORK**

{Employees of this classification must be able to perform the following. Physical and mental tasks related to these functions will be required. The following examples do not contain every task that could be reasonable assigned.
