Small MS4 Annual Report Form

Please refer to the attached instructions as you prepare your annual report.

A. General Information

Name of MS4: City of Abbeville

Contact Name: Chris Gautreaux, Public Works Director

Telephone Number: 337-893-8406 Email Address: cgautreaux@cityofabbeville.net

Annual Report Period: January 1, 2024 through December 31, 2024

B. SWMP Modifications and Additional Information. Attach a written explanation if you check "yes" to any of the following statements.

- | | | |
|---|---|--|
| 1. Changes have been made or are proposed to the SWMP since the last annual report. | YES <input checked="" type="checkbox"/> | NO <input type="checkbox"/> |
| 2. The MS4 area has expanded through the annexation of lands or the urbanized area has expanded based on the most recent US Census. | YES <input type="checkbox"/> | NO <input checked="" type="checkbox"/> |
| 3. The MS4 discharges directly to an impaired water (i.e. Category 5 on the Integrated Report). | YES <input type="checkbox"/> | NO <input checked="" type="checkbox"/> |
| 4. The MS4 discharges directly to water for which a TMDL has been established. | YES <input type="checkbox"/> | NO <input checked="" type="checkbox"/> |
| 5. A TMDL has provided a Waste Load Allocation (WLA) to the MS4. | YES <input type="checkbox"/> | NO <input checked="" type="checkbox"/> |
| 6. The MS4 has conducted analytical monitoring of stormwater quality. | YES <input type="checkbox"/> | NO <input checked="" type="checkbox"/> |
| 7. The MS4 is relying on another government entity to satisfy some permit obligations. | YES <input type="checkbox"/> | NO <input checked="" type="checkbox"/> |

C. Stormwater Management Program Status. Provide the status of every BMP and measurable goal in your SWMP as described in the instructions.

TABLE 1

Minimum Control Measure(s)	BMP	Measurable Goal (steps to measure progress)	New or Revised	Start Date	Implementation Status/ Frequency/ Achievement Date (completed, in progress, not started)
Public Education and Outreach	Classroom Education on Storm Water	Develop one brochure to pin on public displays and classrooms geared to school aged children on the importance of good practices regarding stormwater discharge.	Revised	2019	The classroom brochure was completed as of July 2024. The city will coordinate annually with one school to display brochure. See attachment A.
Public Education and Outreach	Classroom Education on Storm Water	Coordinate with one school annually to post the brochure in a public space and in classrooms.	Revised	2019	In progress. The brochures were given to a local school and the students were able to take the brochure home. It is pinned up at the school. See attachment A.
Public Education and Outreach	Educational Displays, Pamphlets, Booklets, and Utility Stuffers	Develop one educational display on storm water to be used for multiple educational avenues.	New	January 2024	An educational display has been created and has been used for various events in the city. The display will continue to be used for future events. See attachment A.
Public Education and Outreach	Educational Displays, Pamphlets, Booklets, and Utility Stuffers	Send the educational display on storm water with the electrical bill to all electrical customers once annually.	New	January 2024	In progress. The stormwater flyer was sent out with electrical bills throughout the city and will continue to be sent out annually. See attachment A.
Public Education	Educational Displays,	Display the one Stormwater	New	January 2024	In progress. The brochure is on display in City Hall and

and Outreach	Pamphlets, Booklets, and Utility Stuffers	educational brochure in a public place in City Hall.			will be left up for educational purposes. See attachment A.
Public Education and Outreach	Education on proper disposal of household hazardous wastes	Send one post annually on Social Media educating citizens of the importance of disposing properly of household hazardous wastes, what is acceptable for disposal, and also informing them of the date the Vermillion Parish Household Hazardous Waste Collection Day.	New	January 2024	In progress. Hazardous Waste informational post was made on October 23, 2024 and will be posted annually. See attachment A.
Public Education and Outreach	Proper pet waste management (for example: information, ordinances, signage)	Maintain the one current Please Pick up pets waste signs in public spaces.	New	January 2024	The pet waste signs have been maintained throughout the year and will continue to be monitored. See attachment A.
Public Education and Outreach	Storm Water Educational Materials	Develop one storm water educational page on the official city website. Include the two links to the current Storm Water Management Plan and Annual Report.	Revised	2019	The links for the stormwater management plan & annual report have been set up on the city website. This will be reviewed annually. See attachment A.
Public Education and Outreach	Storm Water Educational Materials	Review once annually and update the storm water educational webpage.	New	January 2024	The educational materials were reviewed and the updated SWMP was uploaded to the webpage. See attachment A.
Public Education and Outreach	Tributary signage to increase public awareness of local	Install and maintain two drains to waterways signs in	New	January 2024	Two Drains to Waterway signs have been installed: 1. Lafitte Park & Vermilion

Outreach	water resources	along bayous and the Vermillion River.			River Boat Launch. They will be maintained annually. See attachment A.
Public Involvement and Participation	Citizen complaint hotlines	Maintain an ordinance violation complaint hotline by fielding calls to city or reported on their website. Inspect complaints and correct 100% of complaints.	New	January 2024	In progress. See Attachment B for log.
Public Involvement and Participation	Community Cleanups	Post on social media the details and information regarding volunteer organized community cleanup day once Annually.	Revised	January 2024	Posted on April 29, April 30, and August 2024 about various clean up days. Posts will be made annually for volunteer community cleanup day. See attachment B.
Public Involvement and Participation	Community Cleanups	Actively participate in the community cleanup by providing public employees to assist in the cleanup and city equipment to assist in the proper disposal of the waste collected once annually.	New	January 2024	Actively volunteered and cleaned up for all clean up days. Some clean up days included April 29 & 30 and August 2024. Will continually create volunteer opportunities for city clean ups. See attachment B.
Public Involvement and Participation	Stream cleanup and monitoring	Post on social media the details and information regarding the Vermillion River Cleanups once Annually.	New	January 2024	Posted on April 29, April 30, and August 2024 about various clean up days. See attachment B.
Illicit Discharge Detection and	Citizen complaint hotlines	Maintain an ordinance violation complaint hotline by fielding calls to city or	New	January 2024	See attachment C for log.

Elimination		reported on their website. Inspect complaints and correct 100% of complaints.			
Illicit Discharge Detection and Elimination	Inspection to identify industrial/business/household illicit connections of wastewater to the storm water drainage system	Smoke test the sewer system along one street annually when funds are available and fix the leaks all leaks along the one street that are determined to cause significant harm to the MS4.	New	January 2024	While a smoke test was not performed, multiple camera testing was performed throughout the city. See PDSM Software report attached. We have 94 reports available but have only one attached to show what the report looks like. Others are available upon request. The smoke tests will be performed when funds are available. See attachment C.
Illicit Discharge Detection and Elimination	Sanitary sewer overflows	Fix expediently any broken sewer pipes that would emit waste into the MS4. Complete as problems are reported by citizens or discovered with a minimum of one cleanout annually.	New	January 2024	Sewer repairs were performed and listed. See attachment C.
Illicit Discharge Detection and Elimination	Elimination of Illicit Discharge	Clean out catch basins filled with trash and debris that clogging the storm system and discharge litter into the Vermillion River. Complete as problems are reported by citizens	New	January 2024	There was a catch basin clean out on 11/21/24 at Ronald Darby. See attachment C.

		or discovered with a minimum of one cleanout annually.			
Illicit Discharge Detection and Elimination	Outfall Inspection	Inspect thirty-three percent (33%) of the outfalls annually during dry weather events.	New	January 2024	Drones were used to inspect roughly 90% of outfalls throughout the city. They will continue to be inspected annually. See attachment C on outfalls map.
Illicit Discharge Detection and Elimination	Outfalls Map	Update outfalls map with any new outfalls detected or added, develop live GIS database to track any changes and condition of outfalls once annually.	New	January 2024	A new outfall map has been provided to City of Abbeville by Fenstermaker. It will be reviewed annually for changes. See attachment C.
Construction Site Storm Water Runoff Control	Construction site inspection by municipal inspectors	Inspect 100% of all qualifying construction sites for storm water and erosion issues.	New	January 2024	All construction sites were inspected for erosion/sediment control plan. See attachment D.
Construction Site Storm Water Runoff Control	Model ordinances	Review ordinances once annually for compliance with DEQ requirements and for most effectiveness concerning local discharges and update as necessary.	New	January 2024	Chapter IV Article 5 Section 15-2 updated enforcements & penalties for illicit discharge.
Construction Site Storm Water Runoff Control	Requiring erosion/sediment control plans	Require an Erosion/Sediment Control Plan for 100% of qualifying commercial construction and review the plan for compliance with the city's ordinances.	New	January 2024	All construction sites must have an erosion/sediment control plan application submitted along with a plan set to go with it. One plan is attached, but all are available upon request. See attachment D.

Construction Site Storm Water Runoff Control	Educational and training measures for construction site operators	Develop one educational brochure concerning stormwater and erosion that's construction focused.	New	January 2024	A SWPPP brochure has been created. See attachment D.
Construction Site Storm Water Runoff Control	Educational and training measures for construction site operators	Include the storm water construction brochure with 100% of building permit applicants.	New	January 2024	The SWPPP brochure is included with the building permit applications. See attachment D.
Post Construction Storm Water Management in New Developments and Redevelopment	BMP inspection and maintenance	Perform a final inspection on 100% of qualifying developments to ensure they are in compliance with all ordinances concerning Storm Water and Erosion Control before final acceptance of project.	New	January 2024	All final inspections were performed for qualifying developments in 2024 using a Final inspection checklist. See attachment E.
Post Construction Storm Water Management in New Developments and Redevelopment	Infrastructure planning	Review 100% qualifying developments for compliance to city ordinances to ensure developments will not negatively effect the storm water system.	New	January 2024	All qualifying developments in 2024 were reviewed for compliance with the city ordinances and were seen as not negatively affecting the storm water system. See checklist in attachment E.
Post Construction Storm Water Management in New Developments and Redevelopment	Ordinances for post-construction runoff	Require a site development permit to be obtained for 100% of qualifying development. Also, require that those development's "Grading, erosion	New	January 2024	Building permit applications are required to be submitted and approved along with plans for development to ensure that they are following the city's ordinances. See attachment E.

		control practices, sediment control practices, and waterway crossings shall meet the design criteria set forth in the most recent version of the U.S. EPA 1992 Stormwater Management for Construction Activities publication" according to ordinances. The city shall ensure that those developments follow the ordinances for each applicant.			
Pollution Prevention/ Good Housekeeping for Municipal Operations	Animal carcass collection from roadways	Collect 100% of animals carcasses reported by citizens or discovered by city employees along roadways and dispose of them.	New	January 2024	In progress. A list of animal carcasses has been maintained, and all were disposed of properly. See attachment F.
Pollution Prevention/ Good Housekeeping for Municipal Operations	Automobile maintenance	Contract the maintenance of 100% of city automobiles to mechanics to provide the necessary work to keep the vehicles in proper running order without leaks.	New	January 2024	In progress. The maintenance reports are attached. See attachment F. All reports are available upon request.
Pollution Prevention/ Good Housekeeping for Municipal	Parking lot and street cleaning	Run a street sweeper three times weekly to clean streets of debris.	New	January 2024	While 3 times per week was not maintained, street sweeping was done as often as manpower and budget allowed. See attachment F.

Operations					
Pollution Prevention/ Good Housekeeping for Municipal Operations	Roadway and bridge maintenance	Maintain the roads by fixing potholes or other defects as they are reported by citizens or discovered by city employees. Complete a minimum of 20 repairs quarterly.	New	January 2024	A list of road repairs is provided in attachment F. Although 20 quarterly was not met, repairs have been made as much as manpower would allow.
Pollution Prevention/ Good Housekeeping for Municipal Operations	Storm drain system cleaning	Clean out culverts and catch basins that have become clogged with debris as they are reported by citizens or discovered by city employees. Clean out 1 Annually.	New	January 2024	In progress. Reports of culverts at 402 N. East & 800 Washington St needing to be repaired & cleaned out have been cleaned out and repaired, and the catch basin at Ronald Darby has been cleaned out. See attachment F.
Pollution Prevention/ Good Housekeeping for Municipal Operations	Training program for grounds maintenance and landscaping crews	Provide training for maintenance crew in storm water pollution quarterly.	New	January 2024	Meetings have been held throughout the year to train the maintenance crews on stormwater pollution. Annual meetings will be continued. See attachment F.
Pollution Prevention/ Good Housekeeping for Municipal Operations	Vehicle washing	Routinely wash city vehicles weekly or monthly as needed dependent on season. Wash trucks at a minimum once monthly.	New	January 2024	City vehicles have been washed regularly throughout the year and a list has been provided. See attachment F.

Note: If you have developed a stormwater ordinance during the last reporting period, include a description or citation of the ordinance, or simply attach a copy of the ordinance.

D. Certification

I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations.

Stormwater: Where It Flows, Everything Goes

When it rains, snows, or sleet, water hits hard surfaces and takes anything on that surface with it, through drains, pipes, and ditches to local rivers, lakes, and streams.

Where Stormwater Flows, Everything Goes

A close-up photograph of a textured, brown fabric surface, likely the cover or endpaper of an old book. The fabric has a coarse, woven appearance with visible vertical creases and some discoloration. A dark, possibly black, binding edge is visible on the left side of the frame.

HOUSEHOLD HAZARDOUS WASTE COLLECTION DAY

sponsored by the *Vermilion Parish Police Jury*

SATURDAY, DECEMBER 14, 2024

8 A.M. - 1 P.M.

at the Vermilion Parish Solid Waste Plant

BRING:

- Used oil, antifreeze, transmission fluid, and similar automotive maintenance products.
- Aerosols.
- Latex-based paints, oil-based paints and stains, paint thinners and paint solvents.
- Cleaning products, including acids, bases, bleach, furniture polish and furniture wax.
- Pesticides, herbicides, and insecticides.
- Household and automotive batteries.
- Tires (off the rim only).
- Recyclables:
 - Cans - aluminum, tin & steel food or beverage cans.
 - Paper - newsprint, magazines, junk mail, cardboard.
 - Plastic - with recycling emblem 1 or 2 only.

DO NOT BRING:

- Unlabeled material.
- Medical waste and medicines.
- Ammunition, flares, explosives, or fireworks.
- Household fire alarms or smoke detectors.
- Gas/propane cylinders.
- Trash like sinks/fixtures, floor tiles, siding, or used appliances.
- Anything that is leaking.

DIRECTIONS TO SITE:

- From U.S. Highway 167.
- Turn West on La. Hwy 696
- Turn North on to Birch Road.
- Go to the end of the road where Parish personnel will direct you where to go.

BRING YOUR IDENTIFICATION SHOWING RESIDENCY IN VERMILION PARISH

NO COMMERCIAL WASTE ACCEPTED.

**PARISH OFFICIALS HAVE THE RIGHT TO REJECT ANY MATERIALS
DEEMED UNACCEPTABLE.**

For more information, please call the Vermilion Parish Solid Waste Plant at 898-4338

WHAT IS STORMWATER?

Stormwater is the water that originated from rain. Stormwater that does not soak into the ground becomes surface runoff. Surface runoff flows into surface waterways or storm drains which eventually discharge into surface waters.

Stormwater Pollution

Stormwater pollution is a significant concern as it involves the transportation of pollutants from various sources into our local water bodies. When stormwater flows over the land, it can collect debris, chemicals, dirt, and other contaminants. This polluted water enters storm drains, which lead directly to rivers, lakes, and coastal waters without any treatment. Consequently, the water used for swimming, fishing, and drinking becomes compromised. It's crucial to prevent hazardous materials like paints, cleaners, and motor oil from entering the storm sewer system through proper disposal. Additionally, avoiding the blowing of grass cuttings into the streets and using mulching mowers can help maintain proper drainage and water quality. To prevent soil erosion and sedimentation in our waterways, employing measures like silt fencing, berms, or strategically placed hay bales is essential.

The Effects of Pollution

Polluted stormwater runoff can have many adverse effects on plants, fish, animals and people.

What Can You Do?

- Report a problem. If you witness dumping,
- ✔ littering, or improper erosion control at construction sites, let us know.
 - ✔ Be a responsible homeowner:
 - Keep litter, pet wastes, leaves, and debris out of street gutters and storm drains.
 - Apply lawn and garden chemicals sparingly and according to directions.
 - Dispose of used oil, antifreeze, paints, and other household chemicals properly—not in storm sewers or drains.
 - Clean up spilled brake fluid, oil, grease and antifreeze. Do not hose them into the street where they can eventually reach local streams and lakes.
 - Control soil erosion on your property by planting ground cover and stabilizing erosion-prone areas.
 - Have your septic system inspected and pumped at least every three to five years so that it operates properly.
 - Purchase household detergents and low-phosphorous cleaners to reduce the amount of nutrients discharged into our lakes, streams, and coastal waters.
 - Learn more at: https://www3.epa.gov/npdes/pubs/solution_to_pollution.pdf

Please check out the LDEQ's video describing the "**New Vision**" approach. Please share it with anyone concerned with water quality in Louisiana and elsewhere. Additionally, please check out the LDEQ's video on **how to maintain your home sewage system**. This video was created to support our "New Vision" activities.

🌿 Keep Roads Clear: The Risks of Grass Clippings 🌿

Grass clippings may seem harmless, but when they end up on the street, they pose significant risks to road safety. Whether dry or wet, grass in the roadway can create slippery conditions, particularly for motorcyclists, bicyclists, and drivers. Additionally, grass clippings in the roadway jeopardize the drainage system, potentially compromising the flow of water and causing flooding. It's crucial to avoid leaving grass clippings on the road and opt for responsible disposal methods. Not only is it unsafe, but it's also against state law.

As we are in the midst of hurricane season, the likelihood of rain increases, making it even more important to ensure that our drainage systems are not obstructed by grass clippings. Leaving clippings on your lawn allows them to decompose naturally, benefiting your yard and reducing risks on the road. Consider alternative uses for grass clippings, such as animal feed, compost, mulch, or in raised gardening beds. Let's all do our part to keep our streets safe by ensuring grass clippings stay where they belong – off the road. Thank you for being a responsible citizen and neighbor! [#Abbeville](#) [#TipTuesday](#) [#GrassClippings](#) [#RoadSafety](#) [#BeResponsible](#) [#HurricaneSeason](#)

DON'T BLOW IT!

Help maintain safe roads by keeping grass and leaves on your property

NOTE: THE LOCATIONS OF ALL EXISTING UTILITIES SHOWN ON THIS PLAN HAVE BEEN DETERMINED FROM THE BEST INFORMATION AVAILABLE AND ARE GIVEN FOR THE CONVENIENCE OF THE CONTRACTOR. THE ENGINEER ASSUMES NO RESPONSIBILITY FOR THEIR ACCURACY. PRIOR TO THE START OF ANY DEMOLITION ACTIVITY, THE CONTRACTOR SHALL NOTIFY THE UTILITY COMPANIES FOR ON SITE LOCATIONS OF EXISTING UTILITIES.

CONTRACTOR SHALL CONTACT 811 FOR LOCATION OF ALL UTILITIES. AT LEAST 72 HOURS PRIOR TO BEGINNING CONSTRUCTION

EROSION CONTROL PLAN

VICINITY MAP
1" = 150'

BMP MAINTENANCE EROSION NOTES:

ALL MEASURES STATED IN THE CONSTRUCTION DOCUMENTS SHALL BE MAINTAINED IN FULLY FUNCTIONAL CONDITION UNTIL NO LONGER REQUIRED FOR A COMPLETED PHASE OF WORK OR FINAL STABILIZATION OF THE SITE. ALL EROSION & SEDIMENTATION CONTROL MEASURES SHALL BE CHECKED BY A QUALIFIED PERSON IN ACCORDANCE WITH THE CONTRACT DOCUMENTS OR THE APPLICABLE PERMIT, WHICHEVER IS MORE STRINGENT, & REPAIRED IN ACCORDANCE WITH THE FOLLOWING:

1. INLET PROTECTION DEVICES & BARRIERS SHALL BE REPAIRED OR REPLACED IF THEY SHOW SIGNS OF UNDERMINING OR DETERIORATION.
2. ALL SEEDED AREAS SHALL BE CHECKED REGULARLY TO SEE THAT A GOOD STAND IS MAINTAINED. AREAS SHOULD BE FERTILIZED, WATERED, & RESEED AS NEEDED.
3. SILT FENCES AND EROSION EELS SHALL BE REPAIRED TO THEIR ORIGINAL CONDITIONS IF DAMAGED. SEDIMENT SHALL BE REMOVED FROM THE SILT FENCES / EELS WHEN IT REACHES ONE-HALF THE HEIGHT OF THE SILT FENCE.
4. THE CONSTRUCTION EXITS SHALL BE MAINTAINED IN A CONDITION WHICH WILL PREVENT TRACKING OR FLOW OF MUD ONTO PUBLIC RIGHTS-OF-WAY. THIS MAY REQUIRE PERIODIC TOP DRESSING OF THE CONSTRUCTION EXITS AS CONDITIONS DEMAND.
5. TEMPORARY PARKING & STORAGE AREAS SHALL BE KEPT IN GOOD CONDITION (SUITABLE FOR PARKING & STORAGE). THIS MAY REQUIRE PERIODIC TOP DRESSING OF THE TEMPORARY PARKING AREA AS CONDITIONS DEMAND.
6. OUTLET STRUCTURES IN THE SEDIMENTATION BASINS SHALL BE MAINTAINED IN OPERATIONAL CONDITIONAL AT ALL TIMES. SEDIMENT SHALL BE REMOVED FROM SEDIMENT BASINS OR TRAPS WHEN THE DESIGN CAPACITY HAS BEEN REDUCED BY 50%.
7. PRIOR TO LEAVING THE SITE ALL VEHICLES SHALL BE CLEANED OF DEBRIS. ANY DEBRIS &/OR SEDIMENT REACHING THE PUBLIC STREET SHALL BE CLEANED IMMEDIATELY BY A METHOD OTHER THAN FLUSHING.

EROSION CONTROL NOTES:

1. SEDIMENT & EROSION CONTROL FACILITIES & STORM DRAINAGE FACILITIES SHALL BE INSTALLED PRIOR TO ANY OTHER CONSTRUCTION.
2. CONTRACTOR SHALL MAINTAIN EROSION CONTROL FACILITIES DURING THE ENTIRE CONSTRUCTION PERIOD. FACILITIES ARE NOT TO BE REMOVED UNTIL COMPLETION OF THE PROJECT.
3. ADDITIONAL DEVICES MAY BE REQUIRED AS DEEMED NECESSARY BY GOVERNING AUTHORITIES.
4. SILT FENCES SHALL BE CLEANED OR REPLACED WHEN SILT BUILDS UP TO 1" FROM THE BOTTOM OF THE FENCE.
5. EROSION CONTROL MEASURES ARE TO BE INSPECTED WEEKLY & AFTER EACH RAINFALL & REPAIRED AS NECESSARY.
6. ALL GRADED AREAS SHALL BE STABILIZED WITH A PERMANENT FAST GROWING COVER &/OR MULCH UPON COMPLETION OF GRADING OPERATIONS. COMPLETION OF GRADING OPERATIONS DOES NOT MEAN AT THE END OF THE PROJECT. AS SOON AS FINAL GRADES ARE ESTABLISHED IN AN UNPAVED AREA, THE CONTRACTOR SHALL STABILIZE WITH A TEMPORARY GRASS OR PERMANENT SOD. IF A TEMPORARY GRASS IS APPLIED, IT WILL BE THE CONTRACTOR'S RESPONSIBILITY TO APPLY A PERMANENT SEED OR SOD AT THE PROPER TIME OF YEAR.
7. FILL SLOPES SHOULD BE PLANTED AS SOON AS AN AREA OF THE SITE IS BROUGHT TO FINAL GRADE. SURFACE RUNOFF SHALL BE INTERCEPTED AT THE TOP OF TEMPORARY & PERMANENT SLOPES DURING CONSTRUCTION SO THAT WATER IS NOT ALLOWED TO FLOW OVER THE SLOPE FACE.
8. THE GENERAL CONTRACTOR & THE GRADING CONTRACTOR SHALL REVIEW THEIR GRADING SEQUENCE TO INSURE THAT THE LEAST AMOUNT OF LAND POSSIBLE AT ANY ONE TIME IS DISTURBED WITHOUT PERMANENT STABILIZATION.
9. CONTRACTOR SHALL INSTALL TEMPORARY CONSTRUCTION ENTRANCES PRIOR TO ANY EARTHWORK OPERATIONS.
10. CONTRACTOR SHALL MAINTAIN SILT FENCES FOR THE DURATION OF THE PROJECT UNTIL ACCEPTED BY THE OWNER AT NO EXPENSE TO OWNER.
11. CONTRACTOR SHALL INSPECT ON A DAILY BASIS FOR NEEDED REMOVAL OF ANY ACCUMULATED SILTS, DEBRIS, OR REPAIR OF DAMAGED SILT FENCE AT NO ADDITIONAL EXPENSE TO OWNER.
12. PRIOR TO CONSTRUCTION, THE EROSION & SEDIMENT CONTROL MEASURES SHOWN HEREON SHALL BE IN PLACE. CLEARING & GRUBBING OPERATIONS WILL BE ENGAGED IN ONLY AS NECESSARY TO ALLOW THE PLACEMENT OF EROSION & SEDIMENT CONTROL MEASURES AS SHOWN HEREON UNTIL ALL SUCH MEASURES ARE IN PLACE.
13. LAND DISTURBING ACTIVITIES WILL BE KEPT TO A MINIMUM & WILL NOT EXTEND BEYOND THE LIMITS SHOWN.
14. SEDIMENT & EROSION CONTROL MEASURES WILL BE INSPECTED ON A DAILY BASIS & WILL BE REPAIRED, ADJUSTED & MAINTAINED AS NEEDED OR REQUIRED BY GOVERNING AGENCIES AT NO ADDITIONAL EXPENSE TO THE OWNER TO PROVIDE EROSION & SEDIMENT CONTROL FOR THE DURATION OF CONSTRUCTION & UNTIL ALL DISTURBED AREAS ARE STABILIZED.
15. THE CONTRACTOR SHALL ALSO CONSTRUCT THE SILT FENCING AS SHOWN AT THE PERIMETER OF THE SITE PLAN PRIOR TO LAND CLEARING ACTIVITIES.
16. ALL EROSION CONTROL MEASURES EXCEPT THE REQUIRED RIP RAP ARE TEMPORARY DEVICES. THESE TEMPORARY DEVICES SHALL BE REMOVED PRIOR TO COMPLETION OF CONSTRUCTION ONCE STABILIZATION OF ALL GRASSED AREAS ARE COMPLETE.

WHAT IS THE STORMWATER POLLUTION PREVENTION PLAN TEMPLATE?

The Storm water Pollution Prevention Plan (SWPPP) Template is designed to help operators construction sites develop a streamlined SWPPP that meets the minimum requirements of EPA's Construction General Permit (CGP). This simplified template does not change, relax, or modify any existing conditions in the CGP, including the requirement to submit a Notice of Intent (NOI) for permit coverage.

HOW DOES IT WORK?

Think of the SWPPP Template as a 1040EZ tax form for small construction sites. All of the same requirements apply, but compliance options are focused on only those controls that apply to small residential lot construction, and they are presented in a simplified, user-friendly format. The SWPPP Template streamlines SWPPP development by providing a simplified menu of erosion and sediment control and pollution prevention practices that operators can select from to complete a SWPPP consistent with the minimum requirements in the CGP.

Easy to Use BMP Menu The SWPPP Template provides operators with a walk-through menu of typical erosion and sediment control and pollution prevention practices (i.e., Best Management Practices or BMPs) appropriate for construction sites.

Illustrated Appendix with Pull-Out BMP Spec Sheets Clear, step-by-step BMP spec sheets for each practice you choose are provided in an illustrated appendix that you may edit based on your site-specific conditions.

TO ACCESS EPA'S STREAMLINED SWPPP TEMPLATE VISIT THE WEBSITE BELOW.

<https://www.epa.gov/npdes/stormwater-discharges-construction-activities>

WHO NEEDS TO SEEK COVERAGE UNDER THE EPA CGP?

Stormwater discharges from construction activities that disturb one or more acres, or smaller sites disturbing less than one acre that are part of a common plan of development or sale, are regulated under the National Pollutant Discharge Elimination System (NPDES) stormwater permitting program. Prior to the start of construction, construction operators must obtain coverage under an NPDES permit, which is administered either by the state (if it is authorized to operate the NPDES program) or EPA. Where EPA is the permitting authority, operators may seek coverage under the EPA CGP. The CGP requires operators of construction sites to meet effluent limits (i.e., through the implementation of erosion and sediment controls) and requires operators to develop a SWPPP detailing erosion and sediment controls and pollution prevention measures that will be implemented to meet the requirements of the CGP.

DOES MY PROJECT QUALIFY FOR SWPPP TEMPLATE?

Your site must meet the following criteria:

- Projects must disturb less than one acre of land
- Projects must be located outside of sensitive areas (endangered species, wetlands, historic preservation etc)
- Projects must not cause disturbance within 50 ft of a water of the U.S.
- Projects must not require the use of chemical treatment for stormwater
- Project must not disturb steep slopes

STORMWATER POLLUTION PREVENTION

RESIDENTIAL AND COMMERCIAL CONSTRUCTION

CITY OF ABBEVILLE
101 N STATE STREET
ABBEVILLE, LA 70510

www.cityofabbville.net

10 Steps to Stormwater Pollution Prevention

(1) Protect Any Areas Reserved for Vegetation or Infiltration and Preserve Existing Trees If you will be installing infiltration-based features such as rain gardens or bioswales, make sure these areas are designated as off limits to avoid compaction.

(2) Stockpile Your Soil EPA's CGP requires operators to preserve native topsoil on site unless infeasible and protect all soil storage piles from run-on and runoff. For smaller stockpiles, covering the entire pile with a tarp may be sufficient.

(3) Protect Construction Materials from Run-On and Runoff At the end of every workday and during precipitation events, provide cover for materials that could leach pollutants.

(4) Designate Waste Disposal Areas Clearly identify separate waste disposal areas on site for hazardous waste, construction waste, and domestic waste by designating with signage, and protect from run-on and runoff.

(5) Install Perimeter Controls on Downhill Lot Line Install perimeter controls such as sediment filter logs or silt fences around the downhill boundaries of your site.

(6) Install Inlet Controls Sediment control logs, gravel barriers, and sand or rock bags are options for effective inlet controls. Make sure to remove accumulated sediment whenever it has reached halfway up the control.

(7) Install a Concrete/Stucco Washout Basin Designate a leak-proof basin lined with plastic for washing out used concrete and stucco containers. Never wash excess stucco or concrete residue down a storm drain or into a stream!

(8) Maintain a Stabilized Exit Pad Minimize sediment track-out from vehicles exiting your site by maintaining an exit pad made of crushed rock spread over geotextile fabric. If sediment track-out occurs, remove deposited sediment by the end of the same work day.

(9) Post Your NOI and Keep an Up-to-Date Copy of Your SWPPP on Site Post a sign or other notice of your permit coverage, including your NPDES tracking number and site contact information. Also, keep a copy of your complete and up-to-date SWPPP on site and easily accessible, including site maps showing where each BMP is or will be installed.

(10) Site Stabilization Immediately stabilize exposed portions of the site whenever construction work will stop for 14 or more days, even if work is only temporarily stopped. Remember, final stabilization is required prior to terminating permit coverage.

Commercial/Residential Development Final Walkthrough Checklist

General:

- ☐ Invite personnel from the municipality to attend.
- ☐ Send out meeting request to all invited participants.
- ☐ Take pictures of all deficiencies and pictures of correct installations.

Subsurface Drainage:

- ☐ Check that excessive mud/silt is not at the bottom of drainage manholes or catch basins.
- ☐ Check all drainage structures including all yard drains along the property line off the roadway.
- ☐ Check that the outfall pipe is totally clear and free of debris.

Site Drainage/Grading:

- ☐ Check the detention/retention pond for correct side slopes.
- ☐ Check the detention/retention pond for any erosion issues.
- ☐ Walk the perimeter of the development to ensure that natural drainage patterns are not affected, and the proposed grading plan was adhered to.
- ☐ Check that silt fencing is installed properly according to the erosion control plan.

CITY OF ABBEVILLE BUILDING PERMIT APPLICATION

☐ Commercial Building ☐ Residential Building

Application is hereby made for a building permit in accordance with the description and for the purpose hereinafter set forth. This application is made subject to all City and State Laws and Ordinances, and which are hereby agreed to by the undersigned and which shall be deemed a condition entering into the exercise of this permit.

DESCRIBE IN DETAIL PROPOSED WORK BEING DONE.

Note: If use of building is being changed or if joint use is being added, enter all new proposed use(s) and also define existing use(s).

A PRE-ENGINEERED METAL BUILDING FOR ARC OF ACADIANA THAT WILL BE A RESALE STORE FOR SECOND HAND CLOTHING.

I hereby certify that I have read and examined this application and know the same to be true and correct. All provisions of laws and ordinances governing the above proposed work will be complied with whether specified herein or not. The granting of a permit does not presume to give authority to violate or cancel the provisions of any other statement, local, or state law regulating construction or the performance of construction.

Electronic Signature Agreement

I understand and agree that my application will be signed electronically when I type my name in the signature box **AND** select the check box below. I also understand that my electronic signature means that I intend to apply for this permit/application and have provided the City of Abbeville with accurate information.

I understand that under penalty of perjury that I have examined all the information on this application, and it is true and correct to the best of my knowledge. I understand that anyone who knowingly gives a false or misleading statement about a material fact in this electronic application, or causes someone else to do so, commits a crime and may be sent to prison or may face other penalties, or both.

DESCRIBE IN DETAIL PROPOSED WORK BEING DONE.

Note: If use of building is being changed or if joint use is being added, enter all new proposed use(s) and also define existing use(s).

A PRE-ENGINEERED METAL BUILDING FOR ARC OF ACADIANA THAT WILL BE A RESALE STORE FOR SECOND HAND CLOTHING.

I hereby certify that I have read and examined this application and know the same to be true and correct. All provisions of laws and ordinances governing the above proposed work will be complied with whether specified herein or not. The granting of a permit does not presume to give authority to violate or cancel the provisions of any other statement, local, or state law regulating construction or the performance of construction.

Electronic Signature Agreement

I understand and agree that my application will be signed electronically when I type my name in the signature box **AND** select the check box below. I also understand that my electronic signature means that I intend to apply for this permit/application and have provided the City of Abbeville with accurate information.

I understand that under penalty of perjury that I have examined all the information on this application, and it is true and correct to the best of my knowledge. I understand that anyone who knowingly gives a false or misleading statement about a material fact in this electronic application, or causes someone else to do so, commits a crime and may be sent to prison or may face other penalties, or both.

L.R.S. 40:1577 APPEAL FROM ORDER

Chief Bryan J. Adams
FIRE MARSHAL

When an order is made by one of the deputies or representatives of the Fire Marshal, the owner or occupant of the building or premises may, within three days, appeal to the Fire Marshal. The Fire Marshal shall, within five days, review the order and advise the owner or occupant of his decision thereon. The owner or occupant may, within five days after the making of affirming of any such order of the Fire Marshal, file an application with the Board of Review.

RULES FOR APPEALING TO THE FIRE MARSHAL BOARD OF REVIEW

- I. Any application to the Board of Review shall contain the following basic information set off in organized fashion with captions indicating that the paragraph in question contains the following basic information.
 1. The name of the applicant.
 2. A brief description of the facts.
 3. A copy of the order of the Fire Marshal which is being appealed.
 4. A reference to the section of the law or code being reviewed.
 5. A brief description of why the applicant feels the requirements of the Fire Marshal is not within the Fire Marshal's authority, or brief description of why the interpretation of the Fire Marshal is incorrect or what specific relief is required by the applicant.
 6. A list of the individuals who will be appearing before the Board, and a brief description of the testimony or information they will be providing the Board.
 7. A list of all the documents which will be introduced or provided to the Board along with a brief description of the documents, and if possible, a copy of said documents.
 8. A list of each exhibit except for documents, and a brief description of the exhibit.
- II. Whenever possible, a notice of the meeting, date and place, and the agenda will be recorded in the Louisiana Register, however, whenever that is not possible, a copy of the meeting notice including the date, time and place, and agenda of the meeting of the Board will be published in the official notices of the official state journal; furthermore, a press release containing the same information will be mailed to the official journals of the cities of Shreveport, Monroe, Lafayette, Lake Charles, Alexandria, New Orleans, and Baton Rouge and any city or town in which the meeting of the Board is to be held if it is not one of the aforementioned major cities; and the same information shall be mailed to each individual who has notified the Fire Marshal of his desire to receive a notice of such appeal.
- III. A copy of the determination of the Board as prepared by the Chairman will be mailed to each individual who requests a copy of that specific determination as well as to the applicant.
- IV. The time delays for filing an appeal shall be those specified in R.S.40:1577 and 40:1578 1 D.

Temporary Certificate of Occupancy

City of Abbeville

P.O. Box 1170

Abbeville, LA 70511

CITY OF ABBEVILLE
CONTRACT/GUIDELINES FOR CONTRACTORS

CONTRACT/GUIDELINES FOR DEMOLITION

- Demolition permit will expire 90 days from the date it is issued.
- Demolition debris must be removed from property in accordance with the Ordinance below:

Sec. 15.5-16. - Disposal of waste not classified as garbage or trash.

(c) Any contractor or business which is hired or retained to do or perform work at any location within the city, or performs work outside of the city, is prohibited from placing construction materials and/or debris on or adjacent to city streets to be removed by the Vermilion Parish Police Jury, and is required to transport the same to the Vermilion Parish Solid Waste facility, or to obtain a temporary (forty-eight (48) hours) on-site container from the Vermilion Parish Police Jury for the disposal of such materials.

- If demolition is not complete within 90 days from the date of issuance of permit, the contractor shall have 2 working days of the permit's expiration to apply for extension.

An extension can be given, only if, after inspection by the City, it is found that more than 50% of the work has been completed and/or the remaining work can be completed within the additional 90 days.

Fees for extension of permit:

- Residential Permit & Inspection Fee \$50.00
- Commercial Permit & Inspection Fee \$100.00

If demolition is not completed within the 90 days from issuance and an extension is not applied for within the 2 working days of the permit's expiration, the owner will be notified to appear at a hearing in which a deadline will be given to complete the demolition of the structure/structures and all cost incurred will be billed directly to owner.
